MONEY FOR A DIVORCE

This morning in Judge J. A. How ell's division of the district court the (English case of the Electric Service company against the firm of Fiant & Stoker, an action brought to recover \$170, alleged to be due for electrical fixtures delivered to the defendant company the early part of this year, was discussed without prejudice.

The court then took up for consideration the order to show cause why the defendant in the divorce case of Anna C. Coleman against Albert C. Coleman should not be required to pa attorney fees, costs of suit and all

Mrs. Coleman testified that she with her husband, has been conduct ing the Eldora rooming house on Twenty-fifth street and that she owns an interest in the place, but that, be cause of an estrangement, she now desires a divorce and must means with which to prosecute the ase and support herself and two chill dren. She said that her husband had refused to honor accounts contracted by her and that she is without means except a dollar a day that her hus band has been paying her since diforce proceedings were instituted

The court ordered that the defendant pay \$30 a month temporary ail mony and advance suit money and

HUNTERS LOOK hold reading. Originating in Judea in Maccabean times about B. C. 155, possibly half a century later, it was FOR A GOOD **SEASON**

of duck clubs, who have recently visited the shooting grounds on Great Salt lake in Weber and Box Elder counties with a view narrative through connecting it with to determining the prospects for the important personages of history, such hunting season, report quite favorably as King Nebuchadnezzar of Baby-

It is reported that the recent heavy storms have done much to relieve the Nebuchadnezzar "reigned in Nineveh" condition of diseased ducks, as the which had been destroyed, they saw heavy rainfall has improved the water supply and food conditions. W. liberately poke fun at chronology and H. Anderson, who has had an extensive experience, states that there is shows himself so well informed a little doubt that the season will be man, familiar with foreign geography good, unless another heavy drouth and thoroughly acquainted with Hes'apuld occur before the opening of brew literature, that it is clear that the season, October 1. He says that his chief concern lay in telling the the level of the lake is a little lower than it was last year, but that the the people.

peaches be wrapped and labeled. The buyers declare they will have trouble in selling even those peaches which were thought lost. Now that the damaged peaches can sold at a profit, the loss estimated afer the storm has been reduced by a wide margin.

ricts to produce the fruit estimated in the season, is the cause of the higher price.

"There is but little doubt that the price will be higher within a few veeks," said Mr. Kelly today. "The fact that hail-pecked peaches are wanted indicates a great demand. We had been sending out such peaches packed in bushel boxes for the cheaptrade and were surprised told by buyers to wrap the fruit for a higher class of trade. Of course the peaches injured by hail will not bring the price of the others, but we will sell them at a profit'

Over 100 packers are the plant on the Sand Ridge and an auxiliary plant is to be built to han dle the crop. Three cars were packet esterday and three will be sent out this evening. Other plants are cor respondingly busy, the weather being ideal for the ripening of peaches Estimates from the field depart ment of the Amalgamated Sugar company are to the effect that 95,00

Peach growers are getting 50 cents | tons of beets will be dug from the 6500 acres of sugar beets in the ter-ritory adjacent to the Ogden factory. acreage exceeds that of years by several hundred and the estimate is much larger than other years at this time. The estimates are based upon figures of experts who have visited the fields and know conpany estimate that 95,000 tons of have visited the fields and know con seets will be harvested for the local ditions. The heavy rains have bene

Canners and growers alike express Early Utah potatoes have sold at the opinion that there never was a prices from 10 to 15 cents more a better tomato crop. While the hail damaged some farms, so big is the acreage and heavy the crop that the damage will not materially affect the entire yield. Canners have contract ed for all tomatoes raised at \$10 a heir products than ever before.

So great has become the demand duce tomatoes until frost comes, the or Utah peathes that telegrams have tonnage will probably be very been sent to the local association The canneries will have no difficulty asking that even the hail-pecked in disposing of all the tomatoes they

Some of the smaller growers in the vicinity of Ogden are shipping tomatoes in 20-pound packages and are recelving 35 cents a case

A local produce man estimates that 300 carloads of early potatoes have been shipped from Utah this season. George Kelly, with a large orchard The price has varied between 85 and 90 cents a hundred in carload lots on the Sand Ridge, declared today 90 cents a hundred in carload lots that the failure of other peach dis. The price is from 10 to 15 cents more than was received last year. Several of the cars were shipped from Ogden and from points between Ogden and

Salt Lake When asked regarding the later poatoes, the commission man stated hat the farmers of this section had found it profitable to raise early potatoes but left the later varieties to the Idaho and Colorado farmers Early potatoes mature early in warm, sandy soil. Land is cheaper in Idaho and the yield of potatoes greater. Therefore the Idaho farmers can sell cheaper. In Colorado near Greeley, the farmers have a bet-ter freight rate to Kansas City, a big octate market. This section is admir ably fitted, however, for the early va

> FLY "SWATTING" HORNETS. C. M. Weed, a specialist in plants

and insects, tells about "Fly Swat-ting Hornets." In this article Weed shows how hornets, which alarm people on porches and in houses, are really harmless, and how they are what a hornet will do to a fly: You can easily observe this if you

will watch one of them on a porch for a few minutes. It buzzes around until it suddenly pounces on a fly and carries it away to devour it it at leisure on some secluded perch. Perhaps it may take it to its domelike nest

Last summer I saw repeatedly many of these hornets buzzing over a cow, skillfully catching the flies upon her back, but so far as I know never stinging her

These hornets have an interesting life story. The queens, or females, are the only forms to live over winter. They start their papery nests in trees and shrubs in spring and soon establish such flourishing colonies that by midsummer the hornets may be very House flies and stable flies are

among the most dangerous insect pests because they spread disease. So do not condemn the hornets without considering the good they do as flykillers. Even horse flies much larger than

the hornets are commonly caught One observer reports seeing a white faced hornet drop to the ground with won high esteem in early days. It a captured horse fly. number of amendments to the pro- and Germany is not favorable, so we osed treaty, especially as affecting Japan's policy in Korea. The treaty provides that Japan should have a free hand in the development of her policy in Korea.

The understanding regarding China was distinct. It provided for the open door, and for the territorial integrity

Germany, according to Count Hayashi, was notified that this alliance (between Japan and England) had en made, and also was told of its significant nature as affecting Chinese territorial integrity.

Concerning the proposition to in states that this proposal first came from Germany But Germany was not desired by Japan as a third party, be cause England and Germany at that time were not on especially friendly terms. Count Von Buelow had made a speech denouncing England, says Count Hayashi, "and the English peoseph Chamberlain had replied to Count Von Buelow's speech

were not favorable. However, such an alliance was first suggested London.) But at this time it not appear that they wish to come

Count Hayashi intimates that an un

derstanding existed between Russia though he makes but passing refere ence to it. He says: "Therefore, in view of the relations between Germany and Russia, Germany in the place did not want to come in at all In 1900, when England and German; included in this compact. Therefore I can imagine that Germany does not Count Hayashi's diary states that wish to come into this alliance.

did not persuade Germany to come

Count Hayashi states that England did not wish that formal announce ment be made of the signing of the Anglo-Japanese treaty, but wished to have it become public informally. Japan, however, insisted that a formal announcement be made to all nations, in order that there should be no misunderstanding of the policy of the allies regarding China and Korea.

ECCLES PEOPLE INVESTIGATE RAILROAD POSSIBILITIES

Eccles of Baker City, Ore. clude Germany, thus forming a new Mr. Cunningham, a prominent rail-triple alliance, Count Hayashi's diary road engineer of Oregon, accompanled by Harry Wade, velopment man, of Price, returned yesterday noon after a hurried investigating tour of the county Mr. Eccles has had his eye
